

POLICY RECOMMENDATIONS

NCDs AND COVID IN CAMBODIA

HEALTH INSURANCE

Expand social health protection mechanisms to provide financial risk protection to the **31%** estimated of the population not covered by existing schemes.

COMMUNITY

Utilize community-based structures for NCDs to increase NCD literacy and facilitate links to primary care facilities.

TAXES

Earmark and raise excise taxes on alcohol and tobacco, and strongly consider a new tax on sugar sweetened beverages to reduce consumption and generate revenue.
